Telephone No. 304-558-9844

Subject: Request for Clarification regarding amendment to his license

(NOTE: This will be used as the Documents Title in ADAMS)

I called to speak with Mr. Lore regarding his renewal request dated May 18, 2011 (ML#111390658).

I had two items requiring clarification in his application:

- 1: The current amendment 26 of his license has a location of use in Lewisburg, but that location is not listed in his application. He confirmed that due to E911 changes, the Lewisburg, WV address was changed to Harts Run, WV. The Materials Laboratory is still located in District Nine (shown on the map included with the amendment).
- 2: I asked him clarification of License Condition 17 regarding whether they "detach" the source or source rod from a gauge or simply "remove" the source/rod from the gauge. He confirmed they remove but do not detach the source/rod from the gauge during maintenance and cleaning.

I told him we should have his amended license out in the next couple of weeks. I thanked him for his time and ended the call.
