**Name of Licensee:** McElroy Coal Company

**Name of Participant(s):** Joseph Richards & Sattar Lodhi

**Telephone No.** 724-485-4596

**Subject:** Mailing address & possession limits

The renewal application had the mailing address in West Virginia which is different from the existing license (Pennsylvania). I called the licensee to confirm if the address in item 3 of the application was correct. The licensee confirmed that the address was of the location of the plant and that they would prefer to have the mail sent directly to the plant rather than to the corporate office, which is in Pennsylvania. I also asked him about the name they want on the license. He stated that the name should be McElroy Coal Company, McElroy Preparation Plant.

I explained to the licensee that in accordance with NRC policy, we will terminate their current license and issue a new license that corresponds to the mailing address in West Virginia. He also confirmed that they are requesting transfer of their GL devices to their specific license and will send a written request soon.
