Name of Licensee: Sensor Services, Inc.

Name of Participant(s): Rodney Lake, RSO
Kathy Modes, NRC

Telephone No. 814-827-8099

Subject: Question about possession of RAM for NRC service provider licensee

(NOTE: This will be used as the Documents Title in ADAMS)

LEFT MESSAGE:

Based on the recommendations made by the Independent External Review Panel and Materials Program Working Group in response to the GAO sting, we were asked to add maximum possession limits to licenses. However, service providers do not take possession of their client's radioactive material. In cases such as these, we have been given the authority by FSME to amend the license. The phone call today was to confirm with the service provider licensee that they do or do not take possession of licensed material.

Action Required: Licensee will submit response confirming that they will not take possession of radioactive material at client's facility.

Then we can amend the license as follows:

- Insert into column 8 of the license: "Not Applicable (See Condition 10)"
- Remove the word "possession" from Item 9; and
- Add a License Condition 10 to read as follows and then renumber from there: 10. The licensee does not take possession of the radioactive material(s) and/or source(s) while at the client's facility.
