APR 24 2011

Christopher S. Loyd
Radiation Safety Officer
Earth Exploration, Inc.
7770 W. New York Street
Indianapolis, IN 46214-2988

Dear Mr. Loyd:

Enclosed is Amendment No. 07 to your NRC Material License No. 13-26408-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note that we updated your NRC Material License by modifying License Condition Nos. 13, D, 16, and 19 as the appeared on Amendment No. 06. These changes should enhance your awareness of regulatory requirements and the radiation safety program elements in your license.

We also removed License Condition No. 18 as is appeared in Amendment No. 06 of your license. This condition is now considered redundant since your license now contains possession limits.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

C. Loyd

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael G. Herr". The signature is written in a cursive style with a large initial "M".

Michael G. Herr, CHP
Materials Licensing Branch

License No. 13-26408-01
Docket No. 030-32764

Enclosure:

Amendment No. 07
