Subject: TP Documents available in the reading room

Manny;

I've included the documents that should be available in the reading room:

- Geotechnical Engineering calculation packages (Settlement, Bearing Capacity, Lateral earth pressures and Liquefaction analyses)
- PSHA Implementation
 - Complete SSHAC Level 2 documentation for the new attenuation model and the new Caribbean seismic source development efforts.
 - Plots (or electronic copies) of all individual seismic sources' hazard curves (for all ground motion frequencies)
- Site Response Analysis
 - Q/A documentation for the hazard software and the site response software used in the analyses

Personnel that would need access to such documents via de reading room:

- Sarah Tabatabai, NRC, 301-415-1381
- Carl Constantino, Information System Laboratories, 845-354-2602
- Tom Houston, Information System Laboratories, 505-412-5352

TP Team;

Any other documents you would like to have available in the reading room? Dogan, If you need someone from USGS to review 2.5.2 related documents please let me know to include him in this list.

Thanks

Frankie G. Vega
