**Subject:** RE: Response to RAI 3402 (CP RAI #50)

Ngola,

Although pieces of the COLA changes have appeared in some UTRs, the complete set of updates will be in COLA Revision 2, scheduled for late June 2011.

### Donald R. Woodlan

Manager, Nuclear Regulatory Affairs

**Subject:** Response to RAI 3402 (CP RAI #50)

Don,

Our staff is currently writing the CPNPP chapter 11 safety evaluation and is unable to confirm that RAI 3402 (CP RAI #50) response is incorporated into the FSAR revision 1. The response to RAI 3402 (CP RAI #50) is to satisfy CP COL 11.5(1) and is related to the startup steam generator blowdown heat exchanger downstream radiation monitor (RMS-RE-110). Staff was also unable to verify the response in the available update tracking reports.

Please indicate where the changes have been incorporated in FSAR revision 1 or if they are going to be in future FSAR revision.

Thank you

Ngola Otto  
Project Manager, US-APWR Projects Branch  
Division of New Reactor Licensing  
Office of New Reactors  
(301) 415-6695
