

**U.S. NUCLEAR REGULATORY COMMISSION****TELEPHONE CONVERSATION RECORD****Date:** May 31 and June 1, 2011**Time:** 14:30 and 10:30**Mail Control** 575189 or **License No(s).** 47-17070-01 **Docket No(s).** 03012140  
**or Report No(s).** 2011-001**Name of Licensee:** West Virginia Paving, Inc.**Name of Participant(s):** Dallas Boggess, Radiation Safety Officer  
Steven R. Courtemanche, Health Physicist NRC RI**Telephone No.** 304-720-6402; 610-337-5075**Subject:** NARM Reconciliation Project**(NOTE: This will be used as the Documents Title in ADAMS)**

5/31/11 14:30 I left a message on Mr. Boggess' voice-mail for him to get back in touch with me.

6/1/11 10:30 I informed Mr. Boggess that I was part of the NARM Reconciliation Project and that the reason for the phone call was to obtain information to correct discrepancies between the West Virginia registrants' list and that of the NRC. I questioned Mr. Boggess about the difference in address between the WV list (2950 Charles Avenue) and the NRC license (2902 Charles Avenue). Mr. Boggess stated that the 2950 Charles Avenue address was the company's main mailing address but that new buildings, at that address, had been constructed and the gauges had been moved there. I examined the renewal application and noted that it indicated that the main location of storage was at 2950 Charles Avenue. The licensee possesses sealed sources of cesium-137 and americium-241 in portable gauges manufactured by Troxler Electronics.

6/1/11 The license reviewer contacted the licensee and examined the documents in ADAMS and the docket file. It was determined that the licensee requested the location of storage at 2950 Charles Avenue in the May 9, 2001 application without indicating what was to be done with the location of use at 2902 Charles Avenue. The license reviewer did not pick up on the change and the location was not added. Mr. Boggess indicated to the license reviewer that he would like both locations on the license and would provide a written request to that effect.
