Washington, D. C. 20555

Serial No. NA3-11-005RA
Docket No. 52-017
COLWDC

DOMINION VIRGINIA POWER
NORTH ANNA UNIT 3 COMBINED LICENSE APPLICATION
SRP 13.06: RESPONSE TO RAI LETTER 55

On February 8, 2011, the NRC requested additional information to support the review of certain portions of the North Anna Unit 3 Combined License Application (COLA). The letter contained twenty-five Request for Additional Information (RAI) questions. Dominion responded to thirteen of the RAIs in a letter dated March 22, 2011 (Serial No. NA3-11-005R). A report, North Anna Power Station Unit 3 Physical Security Protection Systems Report (PSPSR), Revision 0, has been prepared to provide the information required for ten of the remaining twelve RAIs and is included as Enclosure 1. The report contains Safeguards Information. The responses to the ten RAIs 13.06-9, 13.06-11, 13.06-12, 13.06-17, 13.06-18, 13.06-27, 13.06-28, and 13.06-30, 13.06-31, and 13.06-32 are provided in a separate letter (Serial No. NA3-11-005RB).

This information will be incorporated into a future submission of the North Anna Unit 3 COLA. The PSPSR completely incorporates the information in "The North Anna Power Station Unit 3 Evaluation of CAS/SAS Design for No Single Act (CAS/SAS Report), Revision 2" previously provided in a letter dated June 28, 2010 (Serial No. NA3-10-006). Therefore, when the PSPSR is incorporated into the COLA, the CAS/SAS Report will be removed.

The final two RAIs, 13.06-22 and 13.06-33, require a response strategy that has not yet been completed. When the response strategy is completed, the PSPSR will be revised to include the applicable information. As discussed with the NRC staff, the revised PSPSR and the responses to RAIs 13.06-22 and 13.06-33 will be provided to the NRC by August 5, 2011.
