**SUBJECT: CONFIRMATION OF INITIAL OPERATOR LICENSE EXAMINATIONS:  
PALISADES NUCLEAR PLANT**

Dear Mr. Kirwin:

We have received your letter dated July 26, 2010. In that letter, you requested an initial operator licensing examination be scheduled for the Palisades Nuclear Plant for June of 2014.

In response, we have scheduled an initial operator licensing examination for the weeks of June 2 and 9, 2014, with an onsite validation date the week of May 12, 2014. We note that you were previously scheduled for an initial operator licensing examination for the weeks of June 25 and July 2, 2012. These dates have not changed. In the unlikely event that we are unable to support the examination during the scheduled weeks, we will inform you immediately upon discovery of such conditions and make arrangements to administer the examination at a mutually acceptable date.

We understand that your staff will develop the examinations unless we determine it is necessary for the NRC to develop an examination in which case, we will notify you immediately upon discovery of that need. Because your letter indicated that there were more than nine applicants being considered for each of these examinations, the examinations were each scheduled for two weeks. Please inform us if the number of applicants decline below ten for any examination as this will impact the examination schedule. Also, please inform us at your earliest opportunity if you discover you need to change the scheduled dates for the examinations.

A supplementary letter will be sent to the training department approximately 120 days prior to the examination informing the training manager of the chief examiner's name. The letter will also outline examination security expectations, list the materials required by the NRC to conduct the examination, reconfirm the examination date, and reconfirm the number of candidates you have in the training program.

In accordance with 10 CFR 2.930 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of NRC's Agencywide Document Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
