Your ref: Docket No. 71-9297
Our ref: LTR-LCPT-11-9

June 2, 2011

Dear Mrs. Vonna Ordaz:

SUBJECT: Docket 71-9297, Amendment Application - Certificate of Compliance No.
USA/9297/AF-96 for Model No. TRAVELLER

Request:

Westinghouse Electric Company, LLC, submitted an amendment request for the Model No. TRAVELLER package (Docket No. 71-9297) on November 19, 2010. Westinghouse Electric Company, LLC, is aware that the NRC staff is concluding its review of our amendment request and will issue in a very near future our revised Certificate of Compliance (CoC) corresponding to the amendment request. The purpose of this letter is to request NRC staff to allow continued use of Revision No. 3 of the Certificate of Compliance No. 9297/AF-96 until June 30, 2013, as condition No. 9 of the soon to be issued CoC. The reason for this request is that Westinghouse Electric Company, LLC, intends to submit another amendment request to accommodate a new fuel design later this year. The change will affect our international validations of this CoC. Extending the use of the current Revision No. 3 of the certificate until June 30, 2013, will both allow the new amendment request to be processed by NRC staff while requiring only one review from foreign competent authorities because of the CoC overlap. We thank you for your consideration of this request.

Sincerely,

** Electronically approved*

William E. Stilwell III
