SUMMARY
This refers to your application dated October 28, 2010 (with attachments) and the conversation between Irvin Stack and Michael Herr on March 22, 2011.

NUREG 1556, Vol. 1, Rev.1, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses," requires that specific elements of the Radiation Safety Program be addressed during the renewal process and commitments be made by the licensee. This NUREG can be found on our website at:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/r1/>

Appendix B of the NUREG referenced above provides a checklist with suggested responses for the licensee to address these required program commitments. The attachment titled: "Stack Engineering – Radiation Safety Program," to your application dated October 23, 2010 addresses most of these program elements, but a few below need responses:

Item 10 of Appendix B, "Radiation Safety Program – Survey Instruments" give a suggested response for the licensee of: "We will either possess and use, or have access to and use, a radiation survey meter that meets the Criteria in the section entitled "Radiation Safety Program – Instruments" in NUREG-1556, Vol. 1, Rev. 1, dated November 2001." Please provide a response to how you will provide survey instrumentation for your Radiation Survey Program.

Item 10 of Appendix B, "Radiation Safety Program – Material Receipt and Accountability" give a suggested response for the licensee of: "Physical inventories will be conducted at intervals not to exceed 6 months, to account for all sealed sources and devices received and possessed under the license." Please provide a response to how you will conduct inventories to account for devices you possess under your NRC material license.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
