Re: Renewal of NRC Appendix P Export/Import License PCB63

Dear Deputy Director,

Weatherford International, Inc. (including subsidiaries and affiliate companies)¹ requests a renewal of combination export & import license PCB63 for 10 CFR §110, Appendix P, Category 2 radioactive byproduct materials, including Cs-137 and Am-241/Be byproduct material, which will be used with providing well logging services to various clients in India. Further details can be found on NRC Form 7.

Although India is listed as a restricted destination in 10 CFR §110.29, the Indian Atomic Energy Regulatory Board has demonstrated that it has the appropriate technical and administrative capability, resources and regulatory structure to manage the material in a safe and secure manner and accordingly no exceptional circumstances should exist as described in 10 CFR 110.42(e), obviating the need for Commission review as per 10 CFR 110.40(b)(6)(i). Therefore as this is not a new license application, only Executive Branch review should be required as per 10 CFR 110.41(a)(9). Further, 10 CFR §170.31 fee category 15.K states the fee for Executive Branch review for an Appendix P Category 2 license renewal as \$9900, therefore we are tendering NRC Form 629 authorizing a payment by credit card in that amount.

Weatherford requests that the license number PCB63, license conditions remain the same and extend the expiration date to the maximum possible.

If you have any questions related to this matter, please do not hesitate to contact me. My contact information can be found below.

Regards,

Jeffrey S. Pettigrew
Compliance Manager-Wireline
Weatherford International, Inc.
