**Subject:** RE: South Texas Project Nuclear Operating Company

Hello,

I appreciate our talk earlier. I'm forwarding your e-mail to our aquatic biologist, Briana Balsam, and terrestrial scientist, April BeBault, for further consultation with your office. As stated in the consultation letter of February 2011, the staff is preparing to conduct a site audit at South Texas Project (STP), units 1 and 2, during the week of July 11, 2011. Your office is invited to attend this site audit. Please, let us know if you so decide.

Please, don't hesitate to get in touch with me if you have any questions concerning the NRC staff's review of the STP license renewal application.

Tam Tran  
Project Manager, STP license renewal

Mr. Tran,

Sorry I did not get the email to you yesterday. I had to wait on Clear Lake to discuss it with them. The contact there is Moni Belton. I have drafted the letter and am having it reviewed and finalized. As soon as I get it signed I will forward to you sometime today with a copy to Moni and the Austin Field Office. I have corrected the species table and provided some general comments as we discussed on the transmission lines and other additional information in case there is ever new construction and/or maintenance on those lines or the facility. Thank you for your patience.
