Dear Sir or Madam:

As of this date, please amend license # 24-20003-01 for Marshall Laboratory Services, Inc. The Radiation Safety Officer needs to be changed to Lisa Wade. I have been employed with Marshall Laboratory Services, Inc. since October 2005. Mr. Keith Combs has been available as my consultant since my employment. He trained me in proper procedures and maintenance on our current equipment. I feel I am more than qualified for this position since I have operated and maintained this equipment over the last five years. I am fully aware of the risks of radiation exposure and what the procedures are for containment and reporting any leak. I maintain quality control, any maintenance and any repairs when required. I have also performed leak test every six months since I started and have reviewed every result. I will continue this process in the future.

If you need any additional information, please feel free to contact me.

Sincerely,

Lisa Wade  
Lab Technician
