ISM Services, Incorporated
103A West George Street
Carmichaels, PA 15320

SUBJECT: ISM SERVICES, INCORPORATED, LICENSE AMENDMENT, CONTROL
NO. 575267

Dear Mr. Williams:

This refers to your license amendment request dated May 23, 2011. Enclosed with this letter is the amended license. Please note that NRC regulations do not have provision for an Alternate Radiation Safety Officer, therefore we are unable to approve any individual as Alternate Radiation Safety Officer on a license. A licensee may designate any individual to assist the named Radiation Safety Officer (RSO) in implementing its radiation safety program. However, the named RSO remains the responsible individual for the radiation safety program.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

P. Williams
