US Nuclear Regulatory Commission
ATTN Mr. William Reichhold
Division of Nuclear Safeguards
2443 Warrenville Road, Suite 210
Lisle, Illinois 60532-4352

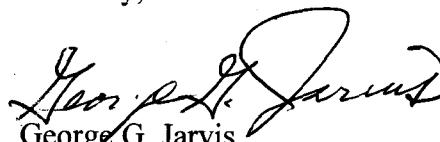

Dear Mr. Reichhold:

The US Army TACOM Life Cycle Management Command (LCMC) requests an amendment to NRC License No. 12-00722-06 (expiration date December 2019), as a result of the Department of Defense Base Realignment Act (BRAC) of 2005. The administrative office at TACOM LCMC Rock Island facility, Rock Island, Illinois will be shut down on 15 September 2011. The request for an amendment includes changing the applicant address on the license and adding Warren, MI as an approved site for possession and maintenance of licensed commodities. Since TACOM LCMC Rock Island, Illinois still has ongoing mission involving tritium devices, it will remain on the license as an approved site for possession. The applicant address as indicated on NRC form 313 item 2, dated July 25, 2008 and the designated Radiation Safety Officer (RSO) for the license will remain the same. The new administrative mailing address is:

Department of the Army
TACOM Life Cycle Management Command
ATTN: AMSTA-CSC-Z
6501 East 11 Mile Rd
Warren, MI 48397-5000

The point of contact for this amendment is Mr. Thomas G. Gizicki, Senior Health Physicist, NRC License RSO, TACOM LCMC Safety Office, Rock Island, Illinois (309)782-2965/4594. Mr. Gizicki's phone number will remain current until he relocates to the TACOM LCMC office in Warren Michigan in early September 2011. Your office will be notified of the new contact number at that time.

Sincerely,

George G. Jarvis
TACOM LCMC Safety Director
