Hi All,

I have set up a teleconference number for this **Wednesday, June 15, at 10am** to discuss some questions that NMFS has regarding the ongoing Indian Point section 7 consultation.

The call-in number is **(888) 995-9569** and the passcode is **42183**.

I have also included the items that Julie Crocker would like to discuss below:

1. **Terms and Conditions and Reasonable and Prudent Measures**—Discuss monitoring for impingement to ensure that the terms are “reasonable and appropriate.”
2. **Thermal Plume**—Has Indian Point completed an updated thermal plume model? If not, Julie would like a summary of the best available information on the thermal plume to date, including the geographic extent of the plume.
3. **Impingement and Entrainment of Benthic Invertebrates**—Is there information available to assess the impacts of impingement and entrainment of benthic invertebrates? (Clams and other invertebrates are potential forage for sturgeon.)

Thanks,

Briana
