# WISCONSIN PUBLIC SERVICE CORPORATION

P.O. Box 1200, Green Bay, Wisconsin 54305

August 30, 1974

Mr. J. F. O'Leary, Director  
Directorate of Licensing  
Office of Regulation  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

Dear Mr. O'Leary:

Subject: Kewaunee Nuclear Power Plant  
Docket 50-305  
Operating License DPR-43  
Extension of Time for Submittal of ATWS

Ref: AEC Letter to Mr. E. W. James dated October 10, 1973

The referenced letter requested that a detailed report be submitted to the U. S. Atomic Energy Commission in the form of an amendment to the Safety Analysis Report by October 1, 1974. The report is to include the details of the position taken by Wisconsin Public Service Corporation with respect to the "anticipated transients without Scram."

It was intended by Westinghouse that the general report of the ATWS analysis results and consequences would be submitted to us by August 1, 1974. Due to delay in obtaining AEC agreement to the Westinghouse models and methods used in the ATWS analysis, coupled with the monopolization of computer time by the ECCS final acceptance criteria analysis, Westinghouse has not submitted this report to us at this date.

A considerable amount of time will be required for us to adequately review and prepare our report to the AEC and for its submittal to our Nuclear Safety Review and Audit Committee. We are, therefore, requesting an extension of 31 days to make our submittal.

Very truly yours,

A handwritten signature in cursive script, appearing to read "E. W. James".

E. W. James  
Senior Vice President  
Power Generation & Engineering
