

Docket No. 50-305

December 13, 1976

Wisconsin Public Service Corporation
ATTN: Mr. E. W. James
Senior Vice President
Post Office Box 1200
Green Bay, Wisconsin 54305

Gentlemen:

You submitted a proprietary report entitled "Summary of WPS Core Analyses Comparisons" dated March 30, 1976, and requested that the report be withheld from public disclosure. By letter dated August 30, 1976, you submitted a nonproprietary version of the report.

The reason for withholding the proprietary report was stated to be that the information is considered proprietary by WPSC since its disclosure would affect WPSC's competitive position in the marketplace. Certain information included in the report may also be considered proprietary by Westinghouse or WPSC consultants.

We have reviewed the document and conclude that WPSC has identified most of the Westinghouse calculated values and parameters as being proprietary. However, neither WPSC nor Westinghouse have provided the reasons and bases upon which this determination was made. In order for this information to be dealt with as proprietary data in accordance with the provisions of Section 2.790 of 10 CFR Part 2, specific identification of the proprietary information is required, together with a full explanation of why this information should be handled as proprietary.

In accordance with 2.790, we will place this document in the public document room unless you provide additional justification, within 30 days from the date of this letter, or request withdrawal of the document.

Sincerely,

151

A. Schwencer, Chief
Operating Reactors Branch #1
Division of Operating Reactors
