**Subject:** RE: Teleconference to discuss NMFS's questions concerning IP section 7 consultation

Dara-

Sorry for the late notice, but I am cancelling Entergy's participation in the phone call tomorrow morning. I have been advised that NMFS and NRC need to discuss other programmatic issues first, before we can get into any specifics of the IP section 7 consultation.

To help facilitate rescheduling of a call specific to the IP section 7 consultation, could you please tell me some times over the next week that you will **\*not\*** be available?

Hi Briana

I did get Drew's message about wanting to have the call at 10 on Wednesday. I believe that will work but am still waiting for confirmation that one of our people can make it. As soon as I hear, I will let you know.

**Subject:** Teleconference to discuss NMFS's questions concerning IP section 7 consultation

Hi All,

I have set up a teleconference number for this **Wednesday, June 15, at 10am** to discuss some questions that NMFS has regarding the ongoing Indian Point section 7 consultation.

The call-in number is **(888) 995-9569** and the passcode is **42183**.

I have also included the items that Julie Crocker would like to discuss below:

1. **Terms and Conditions and Reasonable and Prudent Measures**—Discuss monitoring for impingement to ensure that the terms are “reasonable and appropriate.”
2. **Thermal Plume**—Has Indian Point completed an updated thermal plume model? If not, Julie would like a summary of the best available information on the thermal plume to date, including the geographic extent of the plume.

3. **Impingement and Entrainment of Benthic Invertebrates**—Is there information available to assess the impacts of impingement and entrainment of benthic invertebrates? (Clams and other invertebrates are potential forage for sturgeon.)

Thanks,

Briana
