August 3, 1981

Mr. Darrell G. Eisenhut, Director
 Division of Licensing
 Office of Nuclear Reactor Regulation
 Washington, D. C. 20555

Dear Mr. Eisenhut:

Docket 50-305
Operating License DPR-43

Ref 1: Generic Letter 81-01 Qualification of Inspection, Examination and Testing and Audit Personnel

Ref 2: Letter of July 23, 1979, from Mr. A. Schwencer to Mr. E. R. Mathews

The subject of Reference 1 has been reviewed. It is the policy of WPS to operate the Kewaunee Nuclear Power Plant in a manner which protects the health and safety of the general public and to operate this plant in an economical manner. To this end the Operational Quality Assurance Program (OQAP) has been developed to comply with the provisions of 10CFR50 Appendix B. The OQAP has been reviewed by the staff with the conclusion that it complies with 10CFR50 Appendix B (see Reference 2).

Supporting the OQAP, Administrative Control Directives (ACD) and Quality Assurance Directives (QAD) are written. QAD13.5 "Training and Qualification of Quality Assurance Auditors" states that training of QA audit personnel will follow the requirements of the OQAP, PS&E Department Procedures and ANSI N45.2.23. This program complies with Regulatory Guide 1.146. ACD9.6, "QC Qualification and Training," was written to comply with ANSI N45.2.6.

Therefore, the Wisconsin Public Service Corporation OQAP is in compliance with 10CFR50 Appendix B and no additional action need be taken.

Very truly yours,

E. R. Mathews

E. R. Mathews, Senior Vice President
 Power Supply & Engineering
