## WISCONSIN PUBLIC SERVICE CORPORATION

P.O. Box 1200, Green Bay, Wisconsin 54305

February 18, 1983

Director of Nuclear Reactor Regulation  
Attention: Mr. S. A. Varga, Chief  
Operating Reactors Branch No. 1  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Varga:

Docket 50-305  
Operating License DPR-43  
Kewaunee Nuclear Power Plant  
Environmental Qualification of Safety-Related Electrical Equipment:  
Proprietary Review of the Equipment Environmental Qualification  
Technical Evaluation Report

---

Reference: 1. Letter to C. W. Giesler of WPSC from S. A. Varga of the NRC  
dated February 2, 1983

Reference 1 transmitted the NRC's Safety Evaluation Report (SER) "Environmental Qualification of Safety-Related Electric Equipment" for the Kewaunee Nuclear Power Plant and the supporting Technical Evaluation Report (TER) prepared by your consultant, Franklin Research Center (FRC). Your letter and the SER requested that we review the TER and inform you whether any portions of the identified pages still require proprietary protection.

Although five manufacturers' proprietary test reports are listed in Section 6 (References) of the FRC TER, none of the checksheets in Section 4 (Evaluation) are stamped "Proprietary." Therefore, to the best of our knowledge, public release of the FRC TER will not compromise the manufacturers' proprietary claims.

Paragraph 3.4 of the FRC TER states that an "implementation guide (TER-C5257-532) has been prepared and issued to the NRC" which will "enable licensees to understand and resolve, in an expeditious manner, qualification deficiencies identified as a result of this TER." We would appreciate your

assistance in obtaining a copy of this document for use in preparing our 30-day response.

Very truly yours,

C. W. Giesler  
Vice President - Nuclear Power
