Dear Mr. Eisenhut:

Docket 50-305
 Operating License DPR-43
 Kewaunee Nuclear Power Plant
Control of Heavy Loads - Nine-Month Response

References: 1) Letter from C. W. Giesler to S. A. Varga dated
 December 23, 1982

Mr. D. G. Eisenhut's letter of December 22, 1980, requested all licensees of operating nuclear power plants to review their controls for the handling of heavy loads against the guidelines of NUREG-0612.

This comprises WPSC's nine-month response to Mr. D. G. Eisenhut's letter of December 23, 1980, concerning the control of heavy loads. This submittal was delayed as discussed with our NRC Project Manager. Our six-month response was transmitted by reference 1. To the best of my knowledge, the information in this letter is true and accurate.

Very truly yours,

C. W. Giesler
 Vice President - Nuclear Power
