Dear Mr. Hintz:

By letters dated February 8 and April 6, 1984, Wisconsin Public Service Corporation submitted requests for relief from certain examination and hydrostatic test requirements of the 1974 Edition through Summer 1975 Addenda of Section XI of the ASME Code for the Kewaunee Nuclear Power Plant. In addition, Wisconsin Public Service Corporation requested that we extend reliefs, previously granted by letter dated April 19, 1983, from June 1984, to the 1985 refueling outage. We have reviewed the requests and supporting information provided in the letters and attachments and have determined that the requests may be granted pursuant to 10 CFR 50.55a(g)(6)(i). A Safety Evaluation Report in support of our position is attached. This completes action on our TAC number 54195.

Sincerely,

/s/SAVarga

Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing
