Categories: Work Needed

Please find enclosed Revision 11 to the guidance associated with Temporary Instruction (TI) 2515/177, "Managing Gas Accumulation in Emergency Core Cooling, Decay Heat Removal, and Containment Spray Systems, (NRC Generic Letter 2008-01)." The principle changes were made in Section 1.4 and I recommend that you pass this along to NRC staff who are working on TI 2515/177 inspections.
