Gentlemen:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Safety Parameter Display System

- References: 1) Letter from D. C. Hintz (WPSC) to Document Control Desk (NRC) dated December 31, 1987.
- 2) Letter from D. C. Hintz (WPSC) to Document Control Desk (NRC) dated February 29, 1988.
- 3) Letter from C. R. Steinhardt (WPSC) to Document Control Desk (NRC) dated July 11, 1989.

Wisconsin Public Service Corporation (WPSC) committed to performing a validation and verification (V&V) program on the Kewaunee Nuclear Power Plant (KNPP) Safety Parameter Display System (SPDS) in reference 1. WPSC submitted the first of three V&V reports, the V&V Plan, in a letter dated February 29, 1988 (reference 2). The remaining two reports are the Design Review Report and the Final V&V Report. Several commitments were made in WPSC's response (reference 3) to Generic Letter 89-06, one of which was to provide the Design Review Report to the NRC by September 1, 1989. The attachment to this letter contains the SPDS Design Review Report. This report is being sent to the NRC for information only, in order to better describe the changes WPSC is making to the SPDS. As stated in reference 3, WPSC has determined that upon making these changes, the KNPP SPDS will fully meet the requirements of NUREG-0737, Supplement 1. WPSC intends on making all of the changes described in the Design Review Report in accordance with the schedule provided in reference 3. If there are any questions, please contact a member of my staff.
