U. S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D.C. 20555

Gentlemen:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Revision 9 of the Operational Quality Assurance Program Description

Reference: 1) Letter from K. H. Evers (WPSC) to NRC Document Control Desk
dated November 3, 1989
4) Letter from G. C. Wright (NRC) to D. C. Hintz (WPSC) dated
November 14, 1989

In accordance with the requirements of 10 CFR 50.54(a)(3), this letter submits the current description (Revision 9) of Wisconsin Public Service Corporation's (WPSC) Operational Quality Assurance Program. Revision 8b of this document was submitted on November 3, 1989 (reference 1) and accepted by the Nuclear Regulatory Commission (NRC) on November 14, 1989 (reference 2).

Attachment 1 to this letter describes the changes made to the OQAP Description that do not require prior NRC approval. These revisions have strengthened the program, clarified WPSC's commitments, and incorporated changes in WPSC's organization. Attachment 1 to this letter contains a short explanation of each revision to the OQAP Description along with the bases for concluding that the revisions continue to satisfy the criteria of 10 CFR 50, Appendix B. Attachment 2 to this letter is Revision 9 of the OQAP Description.

This submittal identifies all changes made in conjunction with Revision 9 of the OQAP Description. WPSC has determined that none of the changes made reduce the commitments previously submitted and accepted by the NRC.

Sincerely,

for K. H. Evers
Manager - Nuclear Power
