Gentlemen:

Docket 50-305  
Operating License DPR-43  
Kewaunee Nuclear Power Plant  
ERDS: Participation in PC-Based Interface Beta Test Group

Reference: 1) Letter from Mr. Gary G. Zech (NRC) to Mr. Ken H. Evers (WPSC) dated  
June 18, 1991

By letter dated June 18, 1991, NRC acknowledged the fact that Wisconsin Public Service Corporation (WPSC) would be delaying implementation of an Emergency Response Data System (ERDS) beyond the original proposed schedule for the Kewaunee Nuclear Power Plant. This delay will allow WPSC to utilize a new PC-based interface system that is currently under development by NRC's contractor.

We would like to take this opportunity to formally notify you that we wish to be included in the beta test group for using the new interface software. We understand that testing may begin in November or December of this year.

An ERDS program implementation plan will be submitted to NRC on October 28, 1991 in accordance with the ERDS final rule that was published on August 13, 1991 (reference 58 FR 40185). A proposed implementation schedule will be included in that submittal.

My staff appreciates the ongoing open dialogue that has occurred with the NRC staff and its contractor during the implementation phase of this project.

Sincerely,

K. H. Evers  
Manager - Nuclear Power
