Gentlemen:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Correction to April, 1988 Monthly Operating Report

Reference: 1) Letter from D. C. Hintz (WPSC) to NRC Document Control Desk
dated May 10, 1988

Reference 1 submitted the monthly operating report (MOR) for the Kewaunee Nuclear Power Plant for April, 1988. This MOR assumed 720 hours in the reporting period. However, due to the switch to daylight savings time, April actually had only 719 hours in the reporting period. This change affected several fields in the MOR. The corrected MOR has been attached.

The fields that have been corrected are item 2 for the "Unit Shutdowns and Power Reductions" section and items 11, 19, 20, 21, and 22 for the "Operating Data Report" section.

We apologize for any inconvenience these corrections may cause.

Sincerely,

D. C. Hintz
Vice President - Nuclear Power
