June 28, 2011

Mr. Mathew Blum, Associate Administrator
Office of Federal Procurement Policy
Office of Management and Budget
725 Seventeenth Street, NW
Executive Office of the President
Washington, DC 20503

Dear Mr. Blum:

In accordance with the Federal Activities Inventory Reform Act of 1998 and the revised Office of Management and Budget (OMB) Circular A-76 dated May 29, 2003, I have enclosed the U.S. Nuclear Regulatory Commission's (NRC's) Year 2011 Inventory of Commercial Activities and Inherently Governmental Functions, the Newly Designated Commercial Reason Code "A" Justifications, and NRC's Point of Contact Information. We have also submitted this information via the OMB web-based database application, the Workforce Inventories Tracking System.

Our Year 2011 Inventory reflects a total of 298 full-time equivalents (FTE) performing commercial activities and 3,714 FTE performing inherently governmental activities. Based on our comprehensive examination of the duties associated with these positions, we are confident that this submission provides an accurate inventory of both commercial and inherently governmental functions currently performed by NRC employees.

We will post our Year 2011 Inventory on our external Web-site and make it available to Congress, after we receive clearance from OMB.

If you have any questions, please contact Virginia Huth, Director, Division of Contracts, Office of Administration, at (301) 492-3600 or via e-mail at Virginia.Huth@nrc.gov.

Sincerely,

/RA by Darren B. Ash for/

R. W. Borchardt
Executive Director
for Operations

Enclosures:
1. Year 2011 Inventory of Commercial Activities and Inherently Governmental Functions
2. Newly Designated Commercial Reason Code "A" Justifications
3. Agency Point of Contact Information
