RECEIVED

Mr. A. Schwencer, Chief  
Operating Reactors Branch #1  
Division of Operating Reactors  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Sir:

Subject: Docket 50-305  
Operating License DPR-43  
Letter from Mr. A. Schwencer to  
Wisconsin Public Service Corporation  
dated November 10, 1977

The referenced letter provided clarification of what the NRC Staff considers equivalent to a Bachelor's degree in a science or engineering subject in the context of Regulatory Guide 1.8 Radiation Protection Manager (RPM) qualification requirements. We concur that the equivalent as addressed for the RPM provides adequate assurance of qualifications and yet sufficient flexibility to the licensee.

We commit to the qualification objectives of Regulatory Guide 1.8 as clarified by the November 10, 1977 letter for the position of the Health Physics Supervisor at the Kewaunee Plant.

Very truly yours,

E. W. James  
Senior Vice President  
Power Supply & Engineering
