SUBJECT: FACILITY LICENSE APPLICATION FILED BY WISCONSIN PUBLIC SERVICE
CORPORATION, KEWAUNEE NUCLEAR POWER PLANT, DOCKET NO. 50-305

RDT:PM:W323

As requested in Roger S. Boyd's memorandum dated August 31, 1967, we have reviewed the reasonableness of the special nuclear material requirement for the first core of subject reactor. The quantity of 120,860 pounds of UO₂ for this core, as listed in table 3.4-1 of the Safety Analysis Report, is a reasonable amount for a reactor of this size and power level.
