Docket No. 50-305

December 21, 1972

A. Glambusso, Deputy Director for Reactor Projects, L
THRU: Karl Knief, Chief, PWR Branch No. 2, L *KK*

MEETING WITH WISCONSIN PUBLIC SERVICE CORPORATION RE KEWAUNEE

Time and Date:

9:00 A.M., January 5, 1973

Location:

P-110, Bethesda, Maryland

Purpose:

To discuss the following aspects of the postulated rupture of high-energy fluid lines outside containment:

- Results of stress analyses of the piping runs.
- The postulated break points in these piping runs together with the rationale for selection of these points.
- WPS/PSE interpretation of the criteria included with our letter of December 15, 1972.

Groups Participating:

Wisconsin Public Service Corp (C. Giesler et al)
Pioneer Service & Engineering (D. Sahlin et al)
AEC (R. C. DeYoung, R. R. Maccary, V. Moore, R. Tedesco, L. Crocker)
