mission, Washington, D.C., Attention: Director, Division of Document Control.

The Tennessee Valley Authority submitted an update of the TVA Environmental Statement (November 9, 1972) (ES), construction permit stage which was independently reviewed by the Atomic Energy Commission (now the Nuclear Regulatory Commission) as part of the construction permit licensing process. The updated environmental report of November 18, 1976, entitled "Environmental Information," was submitted pursuant to 10 CFR Part 51, and is available for public inspection at the above-designated locations. The TVA Environmental Information, Supplement No. 1, "Responses To NRC Questions for Operating License Stage Environmental Review," Watts Bar Nuclear Plant, Unit Nos. 1 and 2, is also available for public inspection at the above-designated locations.

Pursuant to 10 CFR Part 51, interested persons may submit comments on the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by July 17, 1978. Comments by Federal, State, and local officials, or other persons received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C., and the Chattanooga-Hamilton County Bicentennial Library, 1001 Broad Street, Chattanooga, Tenn. Upon consideration of comments submitted with respect to the Draft Environmental Statement, the Commission's staff will prepare a Final Environmental Statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested persons of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Site Safety and Environmental Analysis.

Dated at Bethesda, Maryland, this 1st day of June 1978.

For the Nuclear Regulatory Commission.

WM. H. REGAN, Jr.,
Chief Environmental Projects Branch 2, Division of Site Safety and Environmental Analysis.

[Docket No. 50-305]

WISCONSIN PUBLIC SERVICE CORP. ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 21 to Facility Operating License No. DPR-43 issued to Wisconsin Public Service Corp., Wisconsin Power and Light Co., and Madison Gas and Electric Co. (the licensee) which revised Technical Specifications for operation of the Kewaunee Nuclear Power Plant located in Kewaunee, Wis. The amendment is effective as the date of issuance.

The amendment incorporates changes to the Appendix A technical specifications to support operation in cycle 4. The technical specification limiting control rod insertion during power operation is changed to maintain the shutdown margin required near end of cycle 4 operation.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 17, 1978, as supplemented by letters dated April 10, and May 12, 1978, (2) Amendment No. 21 to Facility Operating License No. DPR-43, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the Kewaunee Public Library, 314 Milwaukee Street, Kewaunee, Wis. 54216. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 25th day of May 1978.

For the Nuclear Regulatory Commission.

A. SCHWENCER,
Chief, Operating Reactors Branch No. 1, Division of Operating Reactors.

[Docket No. 50-29]

YANKEE ATOMIC ELECTRIC CO.

Issuance of Amendment of Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 48 to Facility Operating License No. DPR-3, issued to Yankee Atomic Electric Co. (the licensee), which revised Technical Specifications for operation of the Yankee Nuclear Power Station (Yankee-Rowe) (the facility) located in Rowe, Franklin County, Mass. The amendment is effective as of its date of issuance.

The amendment revises the Appendix A technical specifications by adding surveillance requirements for emergency core cooling system high pressure safety injection throttle valves and by reducing the maximum allowable rate for pressurizer heatup from 200°F/hour to 100°F/hour.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated November 14, 1977 (Proposed Change No. 156) and March 16, 1978 (Proposed Change No. 159), (2) Amendment No. — to License No. DPR-3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Greenfield Public Library, 422 Main Street, Greenfield, Mass. 01581.
