

DOCKET NO. 50-305

DATE: APR 1 1977

LICENSEE: Wisconsin Public Service Corporation (WPSC)

FACILITY: Kewaunee Nuclear Power Plant

SUMMARY OF MEETING HELD ON MARCH 9, 1977, CONCERNING QUALITY ASSURANCE

On March 9, 1977, we met with representatives of Wisconsin Public Service Corporation (WPSC) to discuss the Operation QA Program for the Kewaunee Nuclear Power Plant which was submitted on January 18, 1977.

A list of attendees is attached.

The discussion centered on the WPSC submittal and its adequacy in describing the Operational Quality Assurance Program. We stated that the submittal did not address all of the aspects which would allow us to make a judgement on the adequacy of the QA Program.

As a result of our discussion, the following agreements were made:

1. The docketed QA Program submitted by WPSC on January 18, 1977, will be supplemented to reflect a commitment to comply with ANSI 18.7, the referenced ANSI standards contained therein and the Regulatory Guides that endorse these referenced ANSI standards. If exceptions or alternatives are determined necessary, they will be identified with an explanation of the need for the exception and alternatives described in equivalent detail.
2. The docketed QA Program dated January 18, 1977, will be reviewed within two weeks from February 10, 1977, by the NRC staff and any additional questions will be provided.
