August 19, 1981

Dr. Harold R. Denton, Director
Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Dr. Denton:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Radiological Emergency Response Plan Implementing Procedures

Reference: Immediate Action Letter from James G. Keppler to E. R. Mathews
dated June 22, 1981

Pursuant to 10 CFR Appendix E, Wisconsin Public Service Corporation hereby submits ten copies of the Kewaunee Nuclear Power Plant Radiological Emergency Response Plan Implementing Procedures, attached. By copy of this letter, three copies of these procedures are hereby submitted to Mr. James G. Keppler, Director, U. S. NRC, Region III, Glen Ellyn, Illinois.

As a result of our NRC Emergency Preparedness Inspection, we had committed to develop and implement several additional emergency procedures; see referenced letter, items 5 and 6. During our review of Emergency Plan Implementing Procedures (EPIP's) we have decided that certain other activities had to be written into these procedures, and other non-emergency procedures had to be converted into emergency implementing procedures. The attached index represents the total set of EPIP's that will be developed. As of this date, only those procedures committed to in the reference letter have been completed. We expect to have completed the development of the remaining procedures listed in the index within 60 days.

The procedures attached do not supersede any previous EPIP's sent to you, but rather are additional procedures. In the next submittal, we will issue

the entire set of EPIP's which will then supersede all previous EPIP's sent to you.

Very truly yours,

CR Luma for ER Mathews

E. R. Mathews, Senior Vice President
Power Supply and Engineering
