Mr. Darrell G. Eisenhut, Director
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Withholding EPIP's from Public Document Room

- Reference: 1) Letter from E. R. Mathews to D. G. Eisenhut dated
July 31, 1981
2) Letter from E. R. Mathews to H. R. Denton dated
August 19, 1981

Reference 1 requested Licensees to mark all pages of the Emergency Plan and Emergency Plan Implementing Procedures (EPIP's) which have private or proprietary information, bracket the specific information involved and identify these pages in the transmittal letter when they are submitted to the NRC. This was not done in our most recent submittal (Reference 2). We have verbally requested that these documents not be placed in the Public Document Room; this letter serves as verification of these requests

In reviewing our emergency plan implementing procedures, we have concluded that the level of detail provided in the EPIP's (and all procedures in general) is inappropriate for public disclosure and should not be placed in the Public Document Room. Therefore, we are requesting that previously submitted EPIP's, as well as future submittals of EPIP's, be withheld from the Public Document Room.

Very truly yours,

E. R. Mathews

E. R. Mathews, Senior Vice President
