UNITED STATES NUCLEAR REGULATORY COMMISSION

WISCONSIN PUBLIC SERVICES CORPORATION

WISCONSIN POWER AND LIGHT COMPANY

MADISON GAS AND ELECTRIC COMPANY

DOCKET NO. 50-305

NOTICE OF PROPOSED ISSUANCE OF AMENDMENT
TO FACILITY OPERATING LICENSE

The Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Provisional Operating License No. DPR-43 issued to Wisconsin Public Services Corporation (the licensee) for operation of the Kewaunee Nuclear Power Plant (the facility), located in Kewaunee County, Wisconsin.

In accordance with the licensee's application for a license amendment dated April 1, 1975, the amendment would modify operating limits in the Technical Specifications based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR Section 50.46. The amendment would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to the Kewaunee Nuclear Power Plant, terminate the further restrictions imposed by the Commission's December 27, 1974 Order for Modification of License, and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling System for Light Water Nuclear Power Reactors, 10 CFR Section 50.46.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Act and the Commission's regulations.

By JUN 16 1975 the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of Section 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this Federal Register Notice and Section 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by the above date. A copy of the petition and/or request for a hearing should be sent to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to Steven E. Keane, Esquire, Foley, Sammond & Lardner, 735 North Water Street, Milwaukee, Wisconsin 53202, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

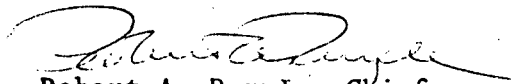

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendment dated April 1, 1975, and (2) the Commission's Order for Modification to License and the documents referred to in the Order dated December 27, 1974 (published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1781), which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Kewaunee Public Library, 314 Milwaukee Street, Kewaunee, Wisconsin 54216. As they become available, the Commission's related

Safety Evaluation and license amendment and any attachments may be inspected at the above locations. A copy of the license amendment and attachments and the Safety Evaluation, when available, may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 12th day of May, 1975.

FOR THE NUCLEAR REGULATORY COMMISSION

Robert A. Purple, Chief
Operating Reactors Branch #1
Division of Reactor Licensing
