Event Text

MEDICAL EVENT

On 12/09/05 a patient was to receive 220 millicuries of I-131 (three capsules). The three capsules were transported in two small pigs. On Tuesday, 12/13/05, one of the capsules was discovered in one of the two pigs indicating the patient only received two of the capsules. The patient will be notified.

The licensee notified Tara Weidner at NRC Region 1.
