

June 8, 2011

Document Control Desk  
US Nuclear Regulatory Commission  
Washington, D.C. 20555-0001

Per your request and our discussions, BWX Technologies, Inc. (BWXT) requests a revision to license conditions 1 & 2 of SNM-2001 to correct errors in these conditions and to update the BWXT mailing address. These conditions incorrectly identify the licensee as:

- 1. Babcock & Wilcox Technologies, Inc.
- 2. B&W Services  
2016 Mt. Athos Road  
Lynchburg, Virginia 24505-5447

The correct conditions should be:

- 1. BWX Technologies, Inc.
- 2. 800 Main Street  
Lynchburg, Virginia 24505

This appears to be an administrative error that began with Amendment 4 on December 14, 2001, and has been propagated to the current Amendment 8. In June of 2010, NRC evaluated the change of licensee ownership in June of 2010 (NRC Document ME101540125) and clearly identified the licensee for SNM-2001 as BWX Technologies, Inc.

If you have questions or need additional information, please contact me at 434-522-6243 or the SLDA Project Manager, Terry Chalker, at 434-522-5531.

Sincerely,

S.W. Schilthelm  
SLDA License Manager  
BWX Technologies, Inc.
