I do...but they were only assigned specifically for the counterpart meetings. I used to work with the regional state liaison officers a lot...maybe I can give them a call and ask for a favor.

Richard – how about contacting the same Regional POCs we used when initially planning the briefs to be done at the Counterpart meetings? I would think that they would at least be able to recommend or point to a designated contact for their respective region? Do you still have their names and nos?

Rich

Rich and Scott,

In regards to setting up the SOARCA webinars to the Regions, but I was hoping to really make some headway this week.

I have talked to the IT folks, and what I need right now is a contact for each region.

Do you know who I could talk to- at the BC level in the Regions about them assigning a staff member to be the webinar contact?

Thanks,
Richard Chang
