Subject: RE: MACCS2: PSA Meeting Wilmington, NC (details)

In a discussion with Nate, this meeting will not impact SOARCA.

It will not impact Tina's uncertainty study since another SNL staff will be working on in an integrated calculation with MELCOR, MELMACCS, and WinMACCS.

Carlos

I did ask Richard if this impacts SOARCA or the UA as we cannot keep asking key SNL folks to work other projects at this time.

Tina do you know if you will need him at this time to support us?
thanks

Pat:

Dr. Nathan Bixler is presenting a paper at this meeting (attachment 1). I have asked him to add the disclaimer shown in page 13 of MD3.9, i.e.:

"The views expressed in this paper or journal article are not necessarily those of the U.S. Nuclear Regulatory Commission."

Nate will be sending the final version of this paper today.

- We are sponsoring this paper under the Modernization of MACCS2 contract. Funding for travel/expenses by one SNL staff will be paid, in part or in full, by the workshop Mr. Bixler will be presenting.

Details about the workshop fees are below. Part of the fees (about \$50) goes to the PSA and the rest is paid to SNL toward user support funding under the MACCS2 contract.

Level 3 Consequence Evaluations - MACCS2

Thur. 3/17, 1:00m - 5:00pm

Fri. 3/18, 8:00am - 12:00pm

Fee: \$350, Student: \$150

E/11

This workshop will be soon advertised to MACCS users (SNL maintain a list of all these users) in case any will like to have some training with MACCS2/WinMACCS.

Link to the PSA meeting: <http://meetingsandconferences.com/psa2011/letter.html>

I request to participate in this meeting, charged as training, since I won't be presenting any paper. The cost of this training is \$825 before February 12, 2011, \$875 after. I will participate on presentations as well as be at the Workshop.

Link to PSA Meeting registration fees: <https://www.conferences-registrations.com/psa2011/>

- Let me know if there any issue with my participation and if I can start travel arrangements.

Carlos N.
