Randy – Richard can send you the exact titles, but your topic is still phenomenological uncertainty, and the NRC talk I developed slides for (which you saw a couple weeks ago) is on the uncertainty analysis plan (overview).

What are the titles at this point?

Hi Patrick,

Good to hear that you will be there.

Thank you again for the comments on the UA plan slides.

FYI, NRC staff will be handling the UA plan presentation (which is just a broad overview.)

This is in part to keep the original structure of the planned RIC session of 2 NRC staff talks, 1 Sandia, 1 peer reviewer.

We just switched out the topic of the 2nd NRC talk.

Unfortunately I will not see you when you are here because I will be away 3/8-3/11 for an ASLB hearing.

Take care,
Tina

I will be at the RIC conference, 3/8 through 3/10, and available if you need me. I will attend the SOARCA session. Please let me know if you need me for anything.

Patrick
