MRP-227 Submittals

Tim Wells, Chairman
MRP Integration Committee
Southern Nuclear Company

NRC/Industry Technical Meeting
Rockville, MD
June 8-10, 2011

Post-SE Reactor Internals AMP Submittals (1/3)

- Industry Understands RIS will be Issued in Conjunction with MRP-227 Safety Evaluation
 - RIS will address submittal requirements based on unique plant licensing requirements
 - Pre-GALL
 - Gall Revision 0, 1 or 2
 - Previous submittals already approved or pending approval
 - Non-License Renewal commitments e.g. Power Upgrades

Post-SE Reactor Internals AMP Submittals (2/3)

- For Plants that have Prepared/Submitted Reactor Internals AMP Prior to SE
 - Re-submittal required?
 - Timing of Re-submittal?
 - Prefer 12 months after MRP-227 1-A is issued
- For Plants with Reactor Internals AMPs Imminently Pending Submittal
 - Additional time allowed to incorporate SE conditions/action items?
 - Submittal schedule based on MRP-227 1-A publication?
 - Prefer 12 months after MRP-227 1-A is issued

Together...Shaping the Future of Electricity
