Attn: Mr. Evan James, Senior Vice President
Power Generation and Engineering

Dear Sirs:

This is in response to your request to the Wisconsin Department of Natural Resources for State certification in accordance with Section 401(a) of the Federal Water Pollution Control Act Amendments of 1972 (P.L. 92-500) for the proposed discharge to Lake Michigan from the Kewaunee Nuclear Power Plant located in the Town of Carlton, Kewaunee County, Wisconsin.

Notice of the application was published by the Department on July 2, 1973, and required that written comments be submitted by July 20, 1973. A total of 39 letters were received. Based on an evaluation of the comments, public hearing was not deemed necessary.

It is hereby certified that for the proposed discharge from the Kewaunee Nuclear Power Plant there are no applicable effluent limitations promulgated pursuant to provisions of Sections 301, 302, 306 and 307 of the 1972 Amendments and that the proposed discharge will be in compliance with water quality standards for Lake Michigan as set forth in Chapters NR 102 and 103 of the Wisconsin Administrative Code.

Very truly yours,
Division of Environmental Protection

Thomas G. Frangos
Administrator
