Mr. Daniel R. Muller, Assistant Director
for Environmental Projects
Directorate of Licensing
U.S. Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Muller:

Re: Docket 50-305

We have reviewed the draft Environmental Statement for the Kewaunee Nuclear Power Plant of the Wisconsin Public Service Corporation - Docket No. 50-305. This statement appears to contain a reasonable and accurate appraisal of the actual and potential effects of this facility on the environment.

We support the recommendations in the Environmental Statement that the issuance of an operating license for the facility be subject to: (a) the development of a more comprehensive biological monitoring program; (b) an increased hydrological monitoring program; and (c) an increased and augmented radiological monitoring program. Our Department has reviewed the specific environmental study proposal with members of the Wisconsin Public Service Corporation and Bio-Test Laboratories and found it to be acceptable.

Thank you for the opportunity to review and comment on this Environmental Statement.

Very truly yours,
Bureau of Environmental Impact
