Comments on Draft Environmental Statement

Prepared by: U. S. Department of Agriculture, Rural Electrification  
Administration, Washington, D.C.

For: Kewaunee Nuclear Power Plant, Wisconsin Public Service Corporation

1. Section 2.3.8 - Impact of Construction Operations

Reference is made to a soil erosion control plan developed for the area controlled by the Power Company. This plan should be fully implemented as soon as possible to assure the desired erosion protection.

2. Page 2.3-10

The agricultural operations will be discontinued on 790 acres this fall. The plan is to place this land back into agriculture in the near future on a lease arrangement with local farmers. We strongly suggest that soil and water conservation be made a condition of any such leasing arrangements.
