Mr. J. G. Keppler, Regional Director

Region III

Dear Mr. Keppler:

Docket 50-305  
Operating License DPR-43  
Semi-Annual Effluent Report

Enclosed please find two copies of the Kewaunee Nuclear Power Plant Semi-Annual Effluent Report for July through December, 1977, submitted per Technical Specification Section 6.9.3.6.

Included with this report is a corrected Table 2.1, Gaseous Effluents-Summation of All Releases, from the Semi-Annual Effluent Report for January through June, 1977. In the original report, 10 CFR 20, Appendix B release rate limits for halogens and particulates were used in calculating the "percent of Technical Specification" entries. The Technical Specification release rate limits, 12% of 10 CFR 20, Appendix B values, should have been used.

Very truly yours,

E. W. James
