Gentlemen:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
Inspection Report 50-305/91-020 (DRP)

- References:
- 1) Letter to C A Schrock (WPSC) From E G Greenman (NRC) Dated October 31, 1991.
 - 2) Letter to Document Control Desk (NRC) From C A Schrock (WPSC) Dated December 2, 1991.

This letter is being forwarded in regard to our response to Inspection Report 91-020, Reference 2, specifically, Action Item 4 which states:

An engineering support request has been initiated to identify other potentially radioactive drain lines in the plant that could contaminate nonradiologically controlled areas if a leak were to develop. The similarly affected drain lines will be identified by June 1992 at which time corrective actions will be initiated as required.

As a result of activities that developed during our recent refueling outage, this task was reprioritized. Completion of this item is anticipated by the end of the 1993 refueling outage.
