Event Text

AGREEMENT STATE REPORT - MEDICAL EVENT DUE TO DOUBLE ADMINISTRATION OF DIAGNOSTIC DOSE

The following information was received from the State of Florida Bureau of Radiation Control via facsimile:

"Patient received two doses of Thallium-201 (Liquid form - 7.2 milliCurie) for a diagnostic Cardiovascular Procedure in the Nuclear Medicine Department. Two nuclear medicine technologists were working in the same room. Second technologist misunderstood that the first tech had already delivered the first dose. Jacksonville area office will investigate."

Estimated maximum internal organ dose received by patient is 9.36 Rem.

Florida Report FL09-052

A Medical Event may indicate potential problems in a medical facility's use of radioactive materials. It does not necessarily result in harm to the patient.
